COMPANY PROFILE

About Us

TRANSCON ELECTRONIC SYSTEMS is a private company established in 1990. We provide custom turn-key solutions for airport and heliport lighting systems with all required hardware and software, as well as power supply and monitoring systems, customized mobile and stationary airports and heliports in standard container modules, complete modular solutions for small regional airports, etc.

TRANSCON has its own highly skilled group of professional hardware and software developers, and its own production workshops, prototyping labs, optical lab, service department, etc. Our development, production and services are certified in accordance with standard quality control systems ISO 9001, ISO 14001 and ISO 45001, ISO 27001.

TRANSCON provides non-stop customer service for all installed equipment, as well as an on-line support service for its software solutions. Operators and service staff members can be trained and officially certified in our specially equipped training center in the Czech Republic.

Modular custom turn-key solutions supplied by TRANSCON are made to be comfortable, easy to operate, service and possibly upgrade in the future. As a part of our solutions, we also offer a technical inspection and assessment of existing state of the airport or heliport and – based on its results – we would recommend an optimal technical solution (project) as well as funding (if required).

TRANSCON products are certified in compliance with ICAO, FAA, STANAG and MAK requirements.

TRANSCON products are already installed and used every day at more than 280 civil and military airports and heliports worldwide, including: Czech Republic, Slovakia, Russian Federation, Poland, Germany, United Kingdom, Belarus, Ukraine, Kazakhstan, Estonia, Latvia, Georgia, Armenia, Azerbaijan, Serbia, Croatia, Bosnia and Hercegovina, Montenegro, Mongolia, Egypt, Libya, Senegal, Republic of South Africa, Kingdom of Saudi Arabia, Sri Lanka, Uruguay, etc.

Expertise

At Transcon Electronic Systems, we provide comprehensive design & build solutions that ensure seamless project execution from concept to completion. Our expertise extends beyond technology, offering training, consulting, and full project support to help you achieve success.

Training

We believe that knowledge is key to efficiency and innovation. That's why we offer professional training directly at our company, equipping your team with the latest industry insights and practical skills necessary to succeed.

Consulting & Project Support

Our expert advisory services guide you through every stage of your project. From initial concept and design to execution and optimization, we provide the expertise and support you need to maximize your efficiency and performance.

Turnkey Solutions – Design & Build

We deliver fully integrated, tailor-made solutions, ensuring a seamless transition from planning to implementation. Our design & build approach minimizes risks, streamlines processes, and guarantees high-quality results.

CERTIFICATES

Our products are meticulously designed to meet **ICAO** and **FAA** regulations, ensuring the highest standards of safety, performance, and reliability. They have been thoroughly tested and officially approved by international institutions.

Our certificates are validated by the following certification authorities:

CAA Czech Republic – Civil Aviation Authority of the Czech Republic

MoD Czech Republic – Ministry of Defense of the Czech Republic

TÜV SÜD – Quality, Safety and Sustainability Standards

CAA Slovak Republic – Civil Aviation Authority of the Slovak Republic

MoD Slovak Republic – Ministry of Defense of the Slovak Republic

МАК – Interstate Aviation Committee of the Russian Federation

ФАВТ – Federal Air Transport Agency (Rosaviatsia)

ССГА – Civil Aviation of the Russian Federation

ГОСТ – Federal Agency for Technical Regulation and Meteorology

МИНТРАНС – Ministry of Transport of the Russian Federation

УКРАИНА – Ministry of Transport of Ukraine
